9. Waste Screening

LANDFILL OPERATIONS Permitted Activities

- Fort Bragg conducts the following operations at the Lamont Rd Landfill Facility:
  - Construction & Demolition (C&D) Landfill Permit #26-08 – permitted to accept all C&D debris and asbestos-containing materials
  - Waste Transfer Station Permit #26-06T
    - Permitted to accept Municipal Solid Waste (MSW)
    - ➢ *Construction contractors should not generate any MSW and are generally prohibited from using this area of the landfill facility*
  - Recycling Areas - accepts land clearing and construction recyclables

LANDFILL OPERATIONS
Transporter Procedure

1. Uncover load prior to entering scales (except asbe containing materials)
2. Enter scale on green light
    - Scale speed is 2 mph
    - Inbound traffic has right-of-way
3. Position window next to keypad and speaker box
4. Enter 4-digit Landfill Usage Code **OR** provide description of the waste or recyclable materials to scale operator using intercom
5. Have vehicle weight recorded and load inspected by overhead camera
6. On green light, proceed to appropriate disposal or recycling area as directed by scale house operator

YOUR RESPONSIBILITIES
Implement the 3 R’s

- **REDUCE**:
  - Make every effort to minimize the amount of waste generated
- **REUSE**:
  - Segregate items that can potentially be reused
- **RECYCLE**:
  - Segregate recyclable items and place in appropriate containers

YOUR RESPONSIBILITIES

General

- Construction and Demolition (C&D) debris should be free of:
  - Hazardous waste/materials,
  - Asbestos-containing materials (ACM), and
  - Garbage
- Properly dispose all wastes that cannot be recycled
- Follow all specifications relating to waste management included in statement of work
  - *When a discrepancy exists between this training and the contract, notify the Solid Waste Manager and your COR immediately*
- Knowing what is being transported on the truck
- Knowing what is and is not accepted at the landfill
- ➢ **Negligent use of the landfill facility or failure to follow permit requirements will result in suspension and/or loss of landfill usage privileges**

YOUR RESPONSIBILITIES Landfill Usage Permit

- All non-military users are required to have a Landfill Usage Permit
- Get a copy of the **Landfill Usage Permit Application** from government or Corps POC
- Complete the following information on permit application form:
    - Name and POC for prime contractor (with signature)
    - Name and POC for sub contractor (with signature)
    - Project number & name
    - Government POC & signature
    - Details on waste being disposed

YOUR RESPONSIBILITIES
Steps for Obtaining Landfill Usage Permit

1. Complete Solid Waste Training for Landfill Users
2. Fill out Landfill Usage Permit Application legibly – illegible applications will not be processed
3. Go to DPW-Environmental Compliance Branch (ECB) in Bldg 3-1137 at Reilly St and Butner Rd
4. Take completed Landfill Usage Permit Application form and Certificate of Completion with you to DPW-ECB
5. Landfill Usage Codes will be issued after application is processed

➢ *Permit is not complete until approved by Solid Waste Manager*

ITEMS PROHIBITED AT LANDFILL

Hazardous & Regulated Waste

These items will not be accepted at the landfill

- Batteries (other than alkaline)
- Petroleum products (including fuel)
- Paints
- Solvents
- Fuel filters
- Oil filters
- Adhesives

Liquids and sludges are not allowed to be disposed at the landfill facility under any circumstances

- Contractors must coordinate with COR for proper disposal of HW/HM
- Contact the HWRO (910-396-2141) for additional regulatory guidance

Solid Waste POC: 910-396-3372 or

ITEMS PROHIBITED AT LANDFILL

Regulated Medical Waste

These items will not be accepted at the landfill

- Defined by MEDCOM Reg. 40-35:
  - May cause disease
  - May pose a risk to health if not handled or treated properly
- Also called
  - Infectious waste
  - Bio-hazardous waste
  - Medical waste
- Normal contractor operations should not generate this waste
- Manage any medical waste that is generated due to an accident at the worksite in accordance with your health and safety plan

➢ Notify the Environmental Compliance Branch and the Government or Corps POC if any medical waste is discovered or generated on worksite

The Right Way
The Green Way
All The Way

Solid Waste POC: 910-396-3372 or

ITEMS PROHIBITED AT LANDFILL
Military Equipment

These items will not be accepted at the landfill

Military equipment includes:

- Parts or components from military vehicles
- Parts or components from field equipment
- Tarps, canopies, or camouflage nets
- Parts or components from military communication equipment
- Any unidentified item that could be munitions or components of munitions

- These items must be turned in to DRMO to ensure proper demilitarization and disposition
- Call the Environmental Compliance Branch or Government POC upon discovery of any suspect items

Solid Waste POC: 910-396-3372 or

ITEMS PROHIBITED AT LANDFILL
White Goods & Tires

These items will not be accepted at the landfill

- White Goods
  - General term that refers to major appliances. The following items are usually described as white goods:
    - Ovens, Stoves, & Ranges
    - Clothes Washers and Dryers
    - Dishwashers
    - Freon Containing Items – refrigerators, chillers, water coolers
- Tires
  - Military and Civilian tires should not be generated as part of normal operations
- If white goods or tires are found during the course of contract work, contact the Solid Waste Manager and Corps POC
- Tires and white goods generated as part of contract work must be disposed in accordance with contract specifications

WASTE TRANSFER STATION Area #7

Construction contractors are not permitted to bring waste to the transfer station

The 3 R’s should be implemented prior to disposal

REDUCE – REUSE – RECYCLE

- Used for collection of solid waste generated by households and office-type operations
  - Also called Municipal Solid Waste (MSW)
- A consolidation point used prior to transportation for final disposal at a permitted landfill
- All recyclables and C&D debris must be kept separate from MSW

ITEMS ACCEPTED Construction & Demolition Landfill Area #7

Solid waste resulting solely from construction, remodeling, repair, or demolition operations on pavement, buildings, or other structures on Fort Bragg can be disposed in the C&D landfill

- Plywood
- Fixtures
- Electrical materials
- Doors
- Painted wood
- Non-Recyclable Concrete

- Windows
- Drywall
- Shingles
- Vinyl Siding
- Plumbing materials
- Treated wood

Reduce – Reuse – Recycle prior to disposing any items into landfill

ASBESTOS DISPOSAL

- Asbestos-Containg Material (ACM) can be present in:
  - Sprayed coatings
  - Pipe Insulation
  - Insulating boards
  - Ropes, yarns and cloth
  - Millboard, paper and paper products
  - Asbestos cement
  - Floor tile, mastics and sealants
- Friable and non-friable ACM generated on Fort Bragg are accepted for disposal in the C&D landfill
- All ACM must be packaged in accordance with 40 CFR 61:
  - Adequately wet
  - In leak-tight packaging
  - Properly labeled

Solid Waste POC: 910-396-3372 or

ASBESTOS DISPOSAL Landfill Notification

- Notify landfill 24 hours in advance at 910-396-6873 so an asbestos disposal area can be prepped
  - Leave a detailed, clearly enunciated message that contains a POC and phone number
  - Landfill personnel will return understandable messages and schedule appointments
  - Do not come to the landfill without an appointment
  - All ACM must be at the landfill before 1300 – loads arriving after this time will be rescheduled

ASBESTOS DISPOS
Friable Asbestos

- FRIABLE ASBESTOS: any material which contains more than 1 percent asbestos, and when dry, can be crumbled, pulverized or reduced to powder by hand pressure
- Examples of Friable ACM:
    - Acoustic ceiling tile
    - Wall jointing compound or "mud"
    - Thermal insulation for water heaters and pipes

Solid Waste POC: 910-396-3372 or

ASBESTOS DISPOSAL
Friable Asbestos

- Bring valid **Landfill Usage Permit**
- Driver completes block 10 on a legible **NC Asbestos Waste Shipment Record** and gives to scale operators
- Driver completes parts 1 and 2 on **Fort Bragg Asbestos Removal, Transportation and Disposal Documentation Form** and gives to scale house for recording inbound weight
- Obtain “FRIABLE ASBESTOS CONTAINING MATERIALS” sign from scale house operator and display in truck windshield

FRIABLE
ASBESTOS CONTAINING MATERIALS

Solid Waste POC: 910-396-3372 or

ASBESTOS DISPOSAL Friable Asbestos (continued)

- Proceed to appropriate disposal area as directed by scale operators
- Wait for direction of C&D operator to specific disposal area
- Unload ACM in a manner that ensures no release of ACM from bags
- Implement dust minimization measures
- After emptying load, proceed back to scale house

The Right Way
The Green Way
All The Way

SUSTAINABLE
FORT BRAGG
www.bragg.army.mil/envbr

ASBESTOS DISPOSAL Friable Asbestos (continued)

- Ensure scale house operator:
  - Records outbound weight
  - Signs, Dates, and Records ACM weight in Block 13 of **NC Asbestos Waste Shipment Record**
  - Signs Section 3 of the **Fort Bragg Asbestos Removal, Transportation and Disposal Documentation Form**
- Scale house retains three legible copies of the **NC Asbestos Waste Shipment Record** and returns remaining copies to the driver.
- Return the “FRIABLE ASBESTOS CONTAINING MATERIALS” sign to the scale house operator.

ASBESTOS DISPOSAL
Non-Friable Asbes

- NON-FRIABLE ASBESTOS:
  - Any material containing more than 1 percent asbestos that when dry, cannot be crumbled, pulverized or reduced to powder by hand pressure
  - Contains a binder or hardening agent, such as cement, asphalt or vinyl, that helps prevent the ACM from becoming friable
- Examples of Non-Friable Asbestos:
  - Flexible building boards
  - Sealants
  - Vinyl floor tiles
  - Roofing materials

RECYCLABLE COLLECTION

Metal Recycling – Area #2

- Any scrap metal generated should be segregated for recycling
  - Aluminum
  - Brass
  - Copper
  - Steel
- Ensure minimal amounts of other types of materials, such as wood, are attached to metal
- Segregate aluminum and steel into separate containers

The Right Way
The Green Way
All The Way

SUSTAINABLE
FORT BRAGG
www.bragg.army.mil/envbr

RECYCLABLE COLLECTION Concertina Wire – Area #4

- Collected separately from other metal
- Can be collected on pallets
- Can be collected as individual rolls if not palletized
- Ensure that proper safety precautions are implemented when handling concertina wire
  - Wear protective gloves
  - Watch for other personnel prior to unloading wire

RECYCLABLE COLLECTION Tree & Yard Waste – Area #5

Solid waste generated solely from land clearing activities and yard maintenance are accepted.

- Brush
- Stumps clear cut to the ground (no more that 12” on the stump end)
- Trees (cut to 6’ lengths or less)
- Limbs (cut to 6’ lengths or less)
- Leaves
- Grass
- Pine needles
- Pinecones
- Untreated wood (example- 2’X4’)
- Any naturally occurring vegetation

Materials are mulched for eventual reuse

Solid Waste POC: 910-396-3372 or

EXIT

ASBESTOS DISPOSA

- Asbestos-Containg Material (ACM) can be present in:
  - Sprayed coatings
  - Pipe Insulation
  - Insulating boards
  - Ropes, yarns and cloth
  - Millboard, paper and paper products
  - Asbestos cement
  - Floor tile, mastics and sealants
- Friable and non-friable ACM generated on Fort Bragg are accepted for disposal in the C&D landfill
- All ACM must be packaged in accordance with 40 CFR 61:
  - Adequately wet
  - In leak-tight packaging
  - Properly labeled

ASBESTOS DISPOSAL Landfill Notification

- Notify landfill 24 hours in advance at 910-396-6873 so an asbestos disposal area can be prepped
  - Leave a detailed, clearly enunciated message that contains a POC and phone number
  - Landfill personnel will return understandable messages and schedule appointments
  - Do not come to the landfill without an appointment
  - All ACM must be at the landfill before 1300 – loads arriving after this time will be rescheduled

Solid Waste POC: 910-396-3372 or

ASBESTOS DISPOS
Friable Asbestos

- FRIABLE ASBESTOS: any material which contains more than 1 percent asbestos, and when dry, can be crumbled, pulverized or reduced to powder by hand pressure
- Examples of Friable ACM:
  - Acoustic ceiling tile
  - Wall jointing compound or "mud"
  - Thermal insulation for water heaters and pipes

ASBESTOS DISPOSAL
Friable Asbestos

- Bring valid **Landfill Usage Permit**
- Driver completes block 10 on a legible **NC Asbestos Waste Shipment Record** and gives to scale operators
- Driver completes parts 1 and 2 on **Fort Bragg Asbestos Removal, Transportation and Disposal Documentation Form** and gives to scale house for recording inbound weight
- Obtain “FRIABLE ASBESTOS CONTAINING MATERIALS” sign from scale house operator and display in truck windshield

FRIABLE
ASBESTOS CONTAINING MATERIALS

All The Way

SUSTAINABLE
FORT BRAGG
www.bragg.army.mil/envbr

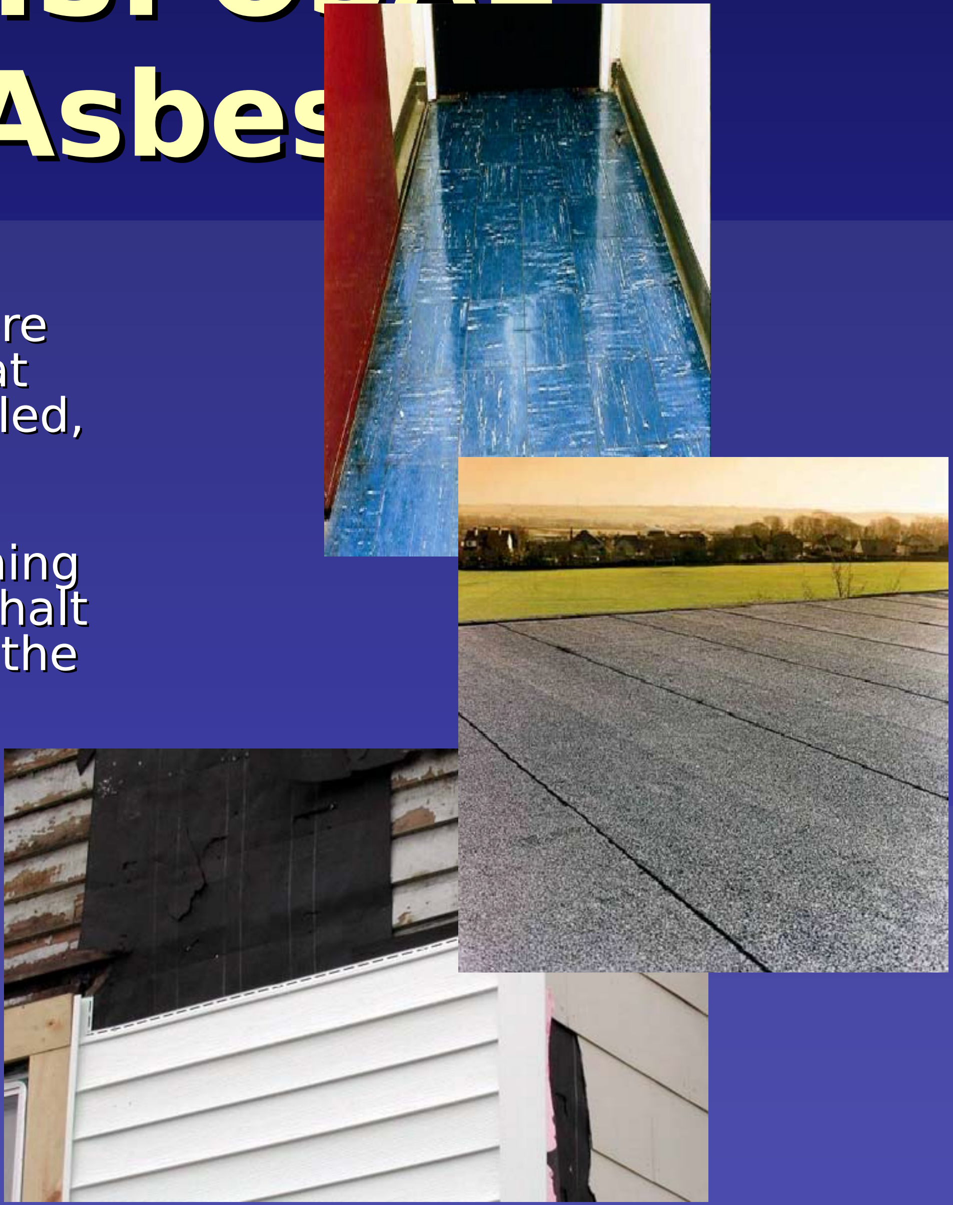
ASBESTOS DISPOSAL Friable Asbestos (continued)

- Proceed to appropriate disposal area as directed by scale operators
- Wait for direction of C&D operator to specific disposal area
- Unload ACM in a manner that ensures no release of ACM from bags
- Implement dust minimization measures
- After emptying load, proceed back to scale house

ASBESTOS DISPOSAL Friable Asbestos (continued)

- Ensure scale house operator:
  - Records outbound weight
  - Signs, Dates, and Records ACM weight in Block 13 of **NC Asbestos Waste Shipment Record**
  - Signs Section 3 of the **Fort Bragg Asbestos Removal, Transportation and Disposal Documentation Form**
- Scale house retains three legible copies of the **NC Asbestos Waste Shipment Record** and returns remaining copies to the driver.
- Return the “FRIABLE ASBESTOS CONTAINING MATERIALS” sign to the scale house operator.

ASBESTOS DISPOSAL
Non-Friable Asbes



- NON-FRIABLE ASBESTOS:
  - Any material containing more than 1 percent asbestos that when dry, cannot be crumbled, pulverized or reduced to powder by hand pressure
  - Contains a binder or hardening agent, such as cement, asphalt or vinyl, that helps prevent the ACM from becoming friable
- Examples of Non-Friable Asbestos:
  - Flexible building boards
  - Sealants
  - Vinyl floor tiles
  - Roofing materials

ASBESTOS DISPOSAL
Non-Friable Asbestos

- Bring valid Landfill Usage Permit.
- Complete parts 1 and 2 of **Fort Bragg Asbestos Removal, Transportation and Disposal Documentation Form**. Give to scale house operator to record inbound weight.
- Display “NON-FRIABLE ASBESTOS CONTAINING MATERIALS” sign in truck windshield (scale house operators have these signs).

NON-FRIABLE
ASBESTOS CONTAINING MATERIALS

ASBESTOS DISPOSAL Non-Friable Asbestos (continued)

- Proceed to appropriate disposal area as directed by scale operators
- Wait for direction of C&D operator to specific disposal area
- Unload ACM in a manner that ensures no bags are ripped
- Implement dust minimization measures
- After emptying load, proceed back to scale house
